

Send Medications Right to Your Home

You may be eligible for Home Delivery. This means that you can avoid trips to the pharmacy to pick up your medications.

Home Delivery, or mail order, is a convenient option for receiving your long-term (or maintenance) medications that you take on an ongoing basis. These medicines can be filled in a 90-day supply, meaning less trips to the pharmacy.

What are Maintenance Medications?

Maintenance Medications treat ongoing conditions like high blood pressure, diabetes or cholesterol. Normally there is no specific time frame to stop these medications.

Why Should I Use Mail Order?

Savings

On average, a 90-day supply of medicine costs less than three 30-day supplies.

Convenience

Medicine is delivered directly to you, which means fewer trips to the pharmacy.

Automatic refill options help you stay on track.

Safety

All prescriptions are reviewed by a pharmacist to help ensure your order is complete and accurate.

Medicine arrives in private, tamper-resistant and when needed, temperature-controlled plain packaging.
